

# FLASH FORWARD

Hardly any German Alternative Rock band is able to build on such a strong sense for stirring songs like FLASH FORWARD. Their sound is best described as a lovechild between the power of Anberlin or The Used, and the elegance of Dashboard Confessional.

After years on tour FLASH FORWARD will release their new single „Perfectionist“ on March 30th via Uncle M Music (Boyssetfire, Apologies I Have None, Anti-Flag). In the past 5 years they played alongside bands like Hawthorne Heights or Dinosaur Pile-Up, toured countless and sold-out their first shows resulting in playing over 250 shows and festivals.

Their new single „Perfectionist“ criticizes our constant strive for self-optimization, turning ourselves into breathless, mindlessly operating machines. FLASH FORWARD know what they're talking about: over the last years they worked without any break, stayed stubborn and fought for their success. But as a young band, they know refinements are part of their growth: While FLASH FORWARD charmed the crowd with their neck breaking live-shows and their releases enchanted both press and blogs („their outstanding mix of Billy Talent, Simple Plan, 30 Seconds To Mars as well as Bring Me The Horizon is unique in Germany“ – The Pick Magazine), the last LP “Who We Are” left the fans longing for more. FLASH FORWARD knew they had to innovate themselves.

With a new team and fresh impulses, FLASH FORWARD refocused on their true talents: excellent songwriting, a production that is in no way inferior to their American heroes and the courage to experiment with unfamiliar elements and influences.

The resulting first single marks a new and important step for the band. „Perfectionist“ will be released via Uncle M Music on march 30th. A new studio album is scheduled to release in late autumn of 2017. Along this journey, they will play several festivals over the summer; such as the Big Day Out with acts like Billy Talent or the Free & Easy Munich with Evergreen Terrace.
